

## ISVS 3 – 3<sup>rd</sup> International Seminar on Vernacular Settlements

ISVS-3, the third International Seminar on Vernacular Settlements was held from 2<sup>nd</sup> – 4<sup>th</sup> March 2006 at Surabaya, Indonesia on the theme Rethinking Local Knowledge in Vernacular Settlements. Anchoring the Concept of Place in the Post-disaster and Post-global world. Although it had then been decided to take the ISVS out of Indonesia to an

international venue, Tsunami struck and it was felt that the devastation suffered by the vernacular settlements in Indonesia itself needed focused attention. Thus, the seminar was held in Indonesia again.
