Dear Timur,
Thank you for the submission of your paper. It had been sent to two reviewers and now we have received the reviews. As a routine practice, the two reviews have been combined to produce a composite review. This review is attached. Please respond to the review comments and follow the suggestions in revising the paper.

The next issue is due at the end of January 2026; therefore, please send back the revised version by 20th Jan 2026. Please let me know if you will revise as per the review so that a slot can be allocated in the ISVS e-journal 13.01.

Looking forward to hearing from you,

Sincerely,
Ranjith ~~Dayaratne~~
